Professional Summary

Frontend-Focused Software Engineer with **2 years of experience** building scalable, responsive web applications using **React.js**, **TypeScript**, and modern UI frameworks. Proven track record of enhancing user experiences for applications with **1M+ users**. Adept at collaborating in Agile environments, driving code quality through reviews, and leveraging AI tools to optimize frontend performance and accessibility.

Experience

Poulima Infotech Nov 2023 – Present
Software Engineer (Frontend Focus) Remote

- Lead Frontend initiatives for **AstroAvastha**, designing interactive UI components with **React.js** and **TypeScript** that support **10k+ concurrent users**.
- Collaborate with cross-functional teams to translate business requirements into responsive, **accessible web interfaces**, ensuring cross-browser compatibility.
- Optimized client-side performance by reducing bundle sizes and implementing lazy loading, resulting in a **40% improvement** in Core Web Vitals.
- Conduct code reviews and mentor peers on **frontend best practices**, enforcing strict typing and reusable component architecture.
- Integrated real-time features using **Socket.io** to power live chat and instant notifications, significantly boosting user engagement metrics.

UBK Infotech May 2023 – Oct 2023
Software Developer Kolkata, West Bengal

- Developed the frontend for a multi-tenant School Management System, utilizing **React.js** to create intuitive dashboards for **5,000+ users**.
- Implemented robust form validation and state management, ensuring data integrity and a smooth user experience across complex workflows.
- Debugged and refactored legacy UI code, improving rendering speed and fixing critical layout issues for mobile devices.
- Collaborated closely with backend teams to integrate RESTful APIs and ensure seamless data synchronization between client and server.

Projects

[Telugu Calendar Panchangam](#) | *React Native, JavaScript, UX Optimization* 1M+ Downloads

- Engineered a high-performance mobile application scaled to **1 Million+ downloads** with a **4.2/5.0 rating**.
- Focused on **Responsive Design** and offline capabilities, ensuring a seamless user experience on low-end devices.
- Optimized UI rendering pipelines to maintain 60 FPS scrolling performance even with heavy data loads.

[Topskyll](#) | *Next.js, TypeScript, Tailwind CSS* Live

- Built a modern, responsive educational platform using **Next.js**, prioritizing **SEO** and **Web Accessibility (a11y)** standards.
- Designed and implemented an interactive code execution interface that provides real-time feedback to users.

[AstroAvastha Marketplace](#) | *React.js, Redux, Real-time UI* Live

- Developed a dynamic marketplace UI with **complex state management** using Redux, handling real-time wallet transactions and chat.

Technical Skills

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
UI/UX & Core: Responsive Design, Web Accessibility, State Management (Redux/Context), DOM Manipulation
Backend Familiarity: Node.js, Express.js, GraphQL, REST APIs (Understanding of full SDLC)
Tools & Methods: Git/GitHub, Agile/Scrum, Chrome DevTools, AI Tools (Copilot/ChatGPT), Postman

Education & Certifications

Amity University Apr 2023 – Present
Bachelor of Computer Applications (Distance Learning) Online

Full Stack Web Development | *Masai School (1200+ Hours Intensive Bootcamp)* 2023

Soft Skills

Collaboration · Innovation · Problem Solving · Remote Team Communication · Design Systems Thinking
